of Fish ID'd

2023 2024

24

of Fish Species Found

Non-biting Midge Larvae
(*Chironomidae*)
Most Common Macro Found

9

Macro Sites

All of which were attaining
PA DEP's high quality (HQ)/
Exception Value (EV)
biological standards.

**Many of the macros
& fish we find are
indicator species.**

They're sensitive to
pollution, so their
presence indicates
healthy water.

More Commonly Found Species:

Blacknose dace (*Rhinichthys atratulus*)

Mayfly (*Ephemera*)

Longnose dace (*Rhinichthys cataractae*)

Mayfly (*Baetis*)
